FLOOR PLAN FOR GARDEN COTTAGE

This is the typical floor plan of our updated one-bedroom, one-bath cottages, which are approximately 600 square feet. Some cottages have the reverse layout with living room and dining area on the left side and kitchen, bathroom and bedroom on the right side. Exact room measurements vary slightly by cottage. The flooring, tile colors, fenced garden areas, arrangement of windows and other attributes are unique to each cottage.

A smaller "junior" cottage has a different floor plan.
